PacSafe Travel Bags

Febreze Fabric Refresher

A long-chain sucrose molecule that bonds to the small particles, locking them in place

Relief Band for Motion Sickness

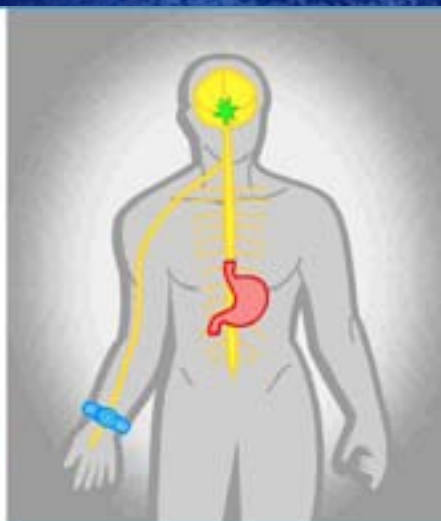

How ReliefBand Works

2. How ReliefBand works

The ReliefBand® Device relieves nausea by using gentle electronic pulses on a nerve on the underside of your wrist.

These pulses then travel to the central nervous system.

TRAVEL TECHNOLOGY

iPod Speakers

USB /Flash/Thumb Drives

Eye-Fi Explore

- SD memory card for your camera
- Built-in wireless network for uploading photos to your PC on home network
- Geo-tagging – senses public wireless network & interpolates location
 - Adds lat/long location info to photo
- Worldwide, transparent uploading
 - Anywhere there is a Wayport hotspot
 - Loads to Web photo album
 - Downloads to home computer (when turned on)

GPS-based Geotagging & Tracking

- GPS-based gadget that records your location at set intervals
- Record an exact map of where you've been
- Auto-sync with timestamp on photos to geotag

GPS-based Geotag

- Technology not quite ready for prime time
- Amod AGL3080 GPS Data Logger is among the better ones
- Soon, cameras will have built in geo-tagging
